ANNEX 1 TNSG CALL SIGN ASSIGNMENTS.....17

**TENNESSEE STATE GUARD
COMMUNICATIONS STANDING OPERATING PROCEDURE**

SECTION 1 GENERAL OPERATION

PURPOSE: To prescribe standard operating procedures and practices for the Directorate of Communications activities and personnel throughout the Tennessee State Guard (TNSG) for interaction with military and civil agencies.

SCOPE: This Standing Operating Procedure (SOP) is applicable to all units and personnel serving in or attached to the TNSG.

MISSION: The mission of the Directorate of Communications of the TNSG is as follows:

1. Organize, maintain, and support a Military Communications System to meet the needs and objectives of the TNSG Commander and all subordinate units.
2. Develop and maintain a standardized training program under which all TNSG Personnel will meet a required level of communications proficiency as well as Mission Essential Task List (METL) requirements.
3. Research and develop new and innovative means of communications including, but not limited to, digital, satellite, and visual communications.
4. Provide a support communications system to civil authority during disasters, mass casualties or community service projects within the state.
5. Receive training and support for the Army Military Affiliate Radio System (MARS) through active participation in the traffic and emergency network.
6. Assist the communications personnel of the Tennessee National Guard (TNG) in preparation for mobilization and deployment as directed.

SECTION 2 USE OF VERY HIGH FREQUENCY

2.1 GENERAL POLICY

Line of sight and short range communications will use Very High Frequency (VHF). Modes of operation authorized for VHF shall be, but not limited to, Frequency Modulation (FM) and digital.

2.2 AUTHORIZED VHF FREQUENCIES

Units of the TNSG are authorized to operate on the following VHF frequencies within Tennessee as secondary users. Outside of Tennessee, such as the Catoosa training site, we are still secondary users. These frequencies are military assigned frequencies. If the National Guard or other military units are using these frequencies, TNSG will not interrupt their communications except in an emergency.

1. 30.35 MHz
2. 32.35 MHz
3. 32.85 MHz
4. 34.85 MHz
5. 49.60 MHz
6. 143.225 MHz
7. 149.80 MHz

2.3 REPEATER OPERATION

The TNSG authorized repeater radio frequencies are:

Transmitter: 32.85 MHz or 149.80 MHz

Receiver: 34.85 MHz or 143.225 MHz

In the repeating mode using a hand-held or mobile radio, 34.85 MHz or 143.225 MHz would be the transmit frequency and 32.85 MHz or 149.80 MHz would be the offset frequency. All repeaters will use a PL tone of 118.8.

2.4 PORTABLE REPEATERS

The repeater can be portable, and the use of a portable repeater is recommended. However, you must have qualified personnel to setup and maintain it. The repeater must comply with the frequency and PL tone allocation authorized in section 2.3 of this SOP.

2.5 PERMANENT REPEATERS

Permanent repeaters generally cover a much larger area than portable units. Therefore, only the TNSG Director of Communications can authorize a permanent repeater installation. A simple request to him with the following information is required:

1. The Global Positioning System (GPS) grid location of the repeater.
2. The site elevation in feet.
3. The power output in watts of the transmitter.
4. The antenna type.
5. Is emergency power available? If so, what type? (12-volt battery backup, emergency generator, solar, etc....)

2.6 SUB-AUDIBLE TONES

All permanent and portable repeaters will have a sub-audible tone. This tone will be 118.8 unless otherwise directed by the Director of Communications.

2.7 VHF RADIO REQUIREMENTS

TNSG hand-held or mobile radios should have at least nine channels. It should be sub-audible tone capable and be setup as follows:

Channel 1 Receive:	149.8 MHz	Channel 1 Transmit:	149.8 MHz
Channel 2 Receive:	143.225 MHz	Channel 2 Transmit:	143.225 MHz
Channel 3 Receive:	149.8 MHz	Channel 3 Transmit:	143.225 MHz
Channel 4 Receive:	30.35 MHz	Channel 4 Transmit:	30.35 MHz
Channel 5 Receive:	32.35 MHz	Channel 5 Transmit:	32.35 MHz
Channel 6 Receive:	32.85 MHz	Channel 6 Transmit:	32.85 MHz
Channel 7 Receive:	34.85 MHz	Channel 7 Transmit:	34.85 MHz
Channel 8 Receive:	34.85 MHz	Channel 8 Transmit:	32.85 MHz
Channel 9 Receive:	49.60 MHz	Channel 9 Transmit:	49.60 MHz

This setup will allow Channels 3 and 8 to be the repeater channels, and the other channels to be simplex channels.

NOTE: TNSG UNITS WILL ONLY OPERATE ON TNSG FREQUENCIES. ANY RADIO OPERATIONS WITH OTHER AGENCIES MAY TAKE PLACE ON EQUIPMENT PROVIDED BY THE OTHER AGENCY.

2.8 VHF CALL SIGNS

Complete call signs shall consist of a letter-number-letter combination and a suffix and are used when –

- Entering a net in which you do not normally operate
- When so requested by the Net Control Station (NCS) or another station on the net.

Abbreviated call signs are used at all other times.

Examples:

Complete call sign-----T5S09

Abbreviated call sign -----S09 or 5S09 (4-digit call sign used when on a state-wide net.)

If no confusion exists as to which radio operators are on the radio net, no call signs need to be used.

All TNSG units from Company level up will use their assigned call signs on VHF. ANNEX 1 contains the complete command and information net call signs of most people assigned to the TNSG. However, there was no attempt made to cover everyone, as everyone will not be using a radio. If any position is left out, this should be noted in the local TNSG SOP and use a spare call sign from the assigned unit call sheet.

If this change is to be permanent, the change request should be forwarded to the TNSG Director of Communications through the chain of command. The TNSG Director of Communications will issue a change order to all units making our Communications SOP the same statewide.

These call signs are to be used when a command and information net is established. They are not intended to be used for tactical nets.

2.9 VHF NET OPERATION

All command and information VHF communication involving 3 or more operators will operate as a directed network with the higher level authority acting as the Net Control Station (NCS). All nets will be established, maintained, and disciplined according to FM 24-18.

Tactical nets in support of TNSG missions and training can be operated as either a Formal/Closed Net or an Informal/Open Net. This is at the discretion of the local Communications Section head and will be written into the annex of all operational orders pertaining to that mission.

The functions of the NCS are as follows:

1. Open and close the net.
2. Direct net operation.
3. Maintain net discipline.
4. Set, monitor or lift RADIO SILENCE as necessary.
5. Maintain a net radio log containing all check-ins, times, dates, etc. Radio logs and written message traffic will be kept on file for at least one year.

2.10 OPERATING RECORDS (LOGS)

Except units operating in the field, all Net Control Stations (NCS) will maintain radio operation logs according to FM 24-18. These logs will be available for inspection for a minimum period of one (1) year. TNSG Headquarters may request copies of logs.

2.11 TACTICAL CALL SIGNS

The Senior Officer or NCO issues tactical call signs for less than Company level operation. The call signs will follow, but are not limited to the following example:

	A TEAM	B TEAM	C TEAM
TEAM LEADER	ALPHA 1	BRAVO 1	CHARLIE 1
TEAM MEMBER	ALPHA 2	BRAVO 2	CHARLIE 2
TEAM MEMBER	ALPHA 3	BRAVO 3	CHARLIE 3
TEAM MEMBER	ALPHA 4	BRAVO 4	CHARLIE 4
TEAM MEMBER	ALPHA 5	BRAVO 5	CHARLIE 5
TEAM MEMBER	ALPHA 6	BRAVO 6	CHARLIE 6
TEAM MEMBER	ALPHA 7	BRAVO 7	CHARLIE 7
TEAM MEMBER	ALPHA 8	BRAVO 8	CHARLIE 8
TEAM MEMBER	ALPHA 9	BRAVO 9	CHARLIE 9
TEAM MEMBER	ALPHA 10	BRAVO 10	CHARLIE 10

Additional tactical call signs may be assigned by the unit Senior Officer or NCO.

SECTION 3 USE OF HIGH FREQUENCY (HF)

3.0 GENERAL POLICY

HF radio has been deleted from this SOP because the TNSG has not yet been assigned HF frequencies for use.

NOTE: In an emergency situation where no other means of communication is available, any TNSG radio operator may operate on HF frequencies in order to obtain emergency assistance. This operation must be in accordance to all FCC Part 97 rules and regulations. This exception must be reported in writing to the TNSG Director of Communications as soon as possible after the incident. In a non-emergency situation, such as a training exercise, HF operations may occur only as authorized by the Director of Communications.

SECTION 4 STAFF MESSAGE CENTERS

The Staff Message Center is a system of processing messages and correspondence within the headquarters.

This is accomplished by establishing message center where messages and mail are received, recorded, and routed to the proper staff or other intended persons for action and information. The Director of Communications, Regimental Communications Officers, and Battalion Communication Officers are responsible for establishing the message center. It will help him or her in maintaining staff message control and ensuring that efficient routing and delivery procedures are established and followed. However, individual staff officers must not rely completely on others; they must assume direct responsibility for ensuring that critical messages are processed expeditiously and reach their destination promptly. The principle purposes of staff message control are:

- A. Receive, dispatch, and record messages and correspondence entering and leaving the headquarters.
- B. Reproduce and route copies to proper members for action and information.
- C. Maintain controls to ensure prompt action by action agencies.
- D. Establish priority of action.
- E. Control the use of security classifications and precedence designations on outgoing communications. Routing and distributions of messages and correspondence are dependent on effective control procedures and a continuing sense of urgency by messengers and message center personnel.

SECTION 5 STATION AUTHENTICATION

During any net operation, the authentication of a station may be challenged. In a formal net, the Net Control Station (NCS) may challenge any or all stations checking in to the net. During an informal net operation, any station may challenge another station if that station suspects the other station to be an unauthorized station on the circuit.

If a station is an illegal station on the net, the station will be advised that he/she is interfering with a military net and to stop transmitting on that frequency. An entry will be

made on the station log as to the incident. If necessary, the NCS may direct all stations to shift to an alternate frequency if one is available.

The TNSG Director of Communications will issue all official authentication charts. They will become a part of the Communications Security Standard Operating Instructions so that changing the charts is not a problem.

SECTION 6 PROPER PRONUNCIATIONS AND SPELLING OF WORDS

To insure the receiving station copies the correct information, the following information will be spelled phonetically.

1. Proper names.
2. Addresses.
3. Words that sound the same but are spelled differently. (I.e. sale and sail, in or inn, etc....)
4. Key words that may be misunderstood.
5. Any word that the receiving station did not understand.
6. The words "I" and "A."

6.1 USE OF THE PHONETIC ALPHABET

The Phonetic Alphabet listed below is authorized for use by the TNSG.

<u>LETTER</u>	<u>WORD</u>	<u>PRONUNCIATION</u>
A	ALFA	<u>AL</u> FAH
B	BRAVO	<u>BRAH</u> VOH
C	CHARLIE	<u>CHAR</u> LEE
D	DELTA	<u>DELL</u> TAH
E	ECHO	<u>ECK</u> OH
F	FOXTROT	<u>FOKS</u> TROT
G	GOLF	<u>GOLF</u>
H	HOTEL	HOH <u>TELL</u>
I	INDIA	<u>IN</u> DEE AH
J	JULIET	<u>JEW</u> LEE ETT
K	KILO	<u>KEY</u> LOH
L	LIMA	<u>LEE</u> MAH
M	MIKE	MIKE
N	NOVEMBER	NO <u>VEM</u> BER
O	OSCAR	<u>OSS</u> CAH

P	PAPA	<u>PAH PAH</u>
Q	QUEBEC	<u>KEY BECK</u>
R	ROMEO	<u>ROW ME OH</u>
S	SIERRA	SEE <u>AIR RAH</u>
T	TANGO	<u>TANG GO</u>
U	UNIFORM	<u>YOU NEE FORM</u>
V	VICTOR	<u>VIK TAH</u>
W	WHISKEY	<u>WISS KEY</u>
X	X-RAY	<u>ECKS RAY</u>
Y	YANKEE	<u>YANG KEY</u>
Z	ZULU	<u>ZOO LOO</u>

6.2 NUMERALS

1. To distinguish numerals from words similarly pronounced, the PROWORD “FIGURES” may be used preceding such numbers.
2. When numerals are transmitted by radiotelephone, the following rules for their pronunciation will be observed:

<u>NUMERAL</u>	<u>SPOKEN AS</u>
0	<u>ZE RO</u>
1	WUN
2	TOO
3	TREE
4	<u>FOW ER</u>
5	FIFE
6	SIX
7	<u>SEV EN</u>
8	<u>AIT</u>
9	<u>NIN ER</u>

3. Numbers will be transmitted digit by digit with the exception that exact multiples of thousands may be spoken as such.

<u>NUMERAL</u>	<u>SPOKEN AS</u>
44	<u>FLOWER FOWER</u>
90	<u>NINER ZE-RO</u>
136	WUN TREE SIX
TIME 1200	WUN TWO ZE-RO ZE-RO
1478	WUN <u>FLOWER SEVEN AIT</u>
7000	<u>SEV EN TOU-SAND</u>
812681	AIT WUN TOO SIX AIT WUN

4. The figure "ZERO" is written as "0". The figure "ONE" is to be written as "1" and the letter "ZULU" is to be written as "Z."
5. Difficult or unusual words may be spelled using the phonetic alphabet preceded by the PROWORD "I SPELL." If pronounceable, the word is pronounced before the PROWORD "I SPELL" and immediately following the phonetic spelling of the word.

SECTION 7 PROCEDURE WORDS

To keep voice transmissions as short and clear as possible, radio operators will use procedure words (PROWORDS) to replace long sentences. The PROWORDS listed below are authorized and will be used by TNSG Radio Telephone Operators (RTO).

PROWORD AND MEANING

ALL AFTER:	The portion of the message to which I have reference is all that which follows.
ALL BEFORE:	The portion of the message to which I have reference is all that which proceeds.
AUTHENTICATE:	The station called is to reply to the challenge that follows.
AUTHENTICATION IS:	The transmission authentication of this message is _____.
BREAK:	I now show the separation of the text from other portions of the message.
CORRECT:	You are correct, or what you have transmitted is correct.
CORRECTION:	An error has been made in the transmission. Transmission will continue with the last word correctly transmitted. An error as been made in this transmission (or message indicated). The correct version is _____. That which follows is the corrected version.
DISREGARD THIS TRANSMISSION – OUT:	This transmission is in error. Disregard it. (This PROWORD shall not be used to cancel any message that has been completely transmitted and for which receipt or acknowledgement has been received.)
DO NOT ANSWER:	Stations called are not to answer this call, receipt of this message, or otherwise to transmit concerning this transmission. When this PROWORD is used, the transmission is ended with the PROWORD "OUT."

EXEMPT:	The addressees immediately following are exempted from the collective call.
FLASH:	Precedence FLASH. Reserved for initial enemy contact reports on special emergency operational traffic originated by specifically designated commanders of units directly affected. This traffic is to SHORT reports of emergencies of vital proportion. Handling is as fast as humanly possible with an objective time of 10 minutes or less.
FROM:	The originator of this message is shown by the address following.
GROUPS:	This message contains the number of groups shown.
IMMEDIATE:	Precedence IMMEDIATE. The precedence reserved for messages relating to situations that gravely affect the national/allied, TNSG, or populace, and requires immediate delivery.
INFO:	The addressees immediately following are addressed for information.
I AUTHENTICATE:	The group that follows is in reply to your challenge to authenticate.
I READ BACK:	The following is my response to your instructions to read back.
I SAY AGAIN:	I am repeating transmission or portion indicated.
I SPELL:	I shall spell the next word phonetically.
MESSAGE:	A message that requires recording is about to follow. (Transmitted immediately after the call.)
MORE TO FOLLOW:	Transmitting station has additional traffic for the receiving station.
OUT:	This is the end of my transmission, and no answer is required or expected. (Since OVER and OUT have opposite meanings, they are never used together.)
OVER:	This is the end of my transmission to you, and a response is necessary. Go ahead; transmit.

PRIORITY:	Precedence PRIORITY. Reserved for important messages that must have precedence over normal traffic. This is the highest precedence that will be assigned to a message of administrative nature.
READ BACK:	Repeat this entire transmission back to me exactly as received.
RELAY (TO):	Transmit this message to all addresses (addresses immediately following this PROWORD). The address component is mandatory when this PROWORD is used.
ROGER:	I have received your signal, understand it.
ROUTINE:	Precedence ROUTINE. Reserved for all types of messages that are not of sufficient urgency to justify a higher precedence, but must be delivered to addressee without delay.
SAY AGAIN:	Repeat all of your last transmission. (Followed by identification data means) "Repeat _____ (portion said)."
SERVICE:	The message that follows is a service message.
SILENCE:	"Cease transmission immediately." Silence is maintained until lifted. (Transmitter imposing silence must authenticate.)
SILENCE LIFTED:	Silence is lifted. (When authentication system is in force, the transmitter lifting SILENCE must be authenticated.)
SPEAK SLOWER:	Your transmission is too fast. Reduce speed of transmission.
THIS IS:	This transmission from the station whose designator immediately follows.
TO:	The addressee(s) immediately following is (are) addressed for action.
UNKNOWN STATION:	The identity of the station with which I am attempting to establish communications is unknown.

VERIFY:	Verify entire message (or portion indicated) with the originator and send correct version. (To be used only at the direction addressee to whom the questioned message was directed.)
WAIT:	I must pause for a few seconds.
WAIT OUT:	I must pause for longer than a few seconds.
WILCO:	I have received your signal, understand it, and will comply. (To be used only by the addressee. Since the meaning of ROGER is included in that of WILCO, the two PROWORDS are never used together.)
WORD AFTER:	The word of the message to which I have reference is that which follows _____.
WORD BEFORE:	The word of the message to which I have reference is that which proceeds _____.
WORDS TWICE:	Communication is difficult. Transmit (ring) each phrase (or each code group) twice. This PROWORD may be used as an order, request, or as information.
WRONG:	Your last transmission was incorrect. The correct version is _____.

SECTION 8 EMERGENCY COMMUNICATIONS

The TNSG has many retired military and civilian personnel, whose age and health may create unwelcome problems, such as heart attacks, strokes, accidents, etc.... It is not limited to senior citizens, it can happen to young people as well; therefore, we should be prepared to contact medical personnel for emergency help. If TNSG medical personnel are available, they will decide what help is needed. It is communications responsibility to assist them in obtaining emergency transportation via either ambulance or MEDEVAC.

A little advanced planning will make handling the emergency a lot easier:

1. Know the coordinates of the location of the emergency. This can be cross streets, or GPS coordinates. GPS coordinates are especially helpful when a MEDEVAC is needed.
2. Have the local emergency services contact numbers on hand.
3. Know the location of the nearest medical facilities.

If a MEDEVAC is required, then use the following procedure:

1. Call the Emergency 911 center. This can be done by either a land-line phone or by cell phone. Stay on the line with the 911 center until the MEDEVAC or other medical personnel arrive.
2. Give the operator all the information available about the emergency. This should include a brief description of the victim, their vital signs, and the location of the emergency and the nature of the emergency. If a MED-A-VAC is being sent, give the frequency of the radios that the ground team is using. This will be necessary for the helicopter crew to contact the ground team for landing instructions.

SECTION 9 RESEARCH AND DEVELOPMENT

Communications technology is a constantly changing field. New and more effective methods of communications are being developed daily. These technologies need to be researched and developed for possible adoption by the TNSG.

Packet radio, PSK31, PSK64, and Fast Scan Television (FSTV) are just a few examples of new communications methods. These technologies and other could be implemented to enhance our communications abilities. For example, through the use of FSTV, a unit in the field could relay live video feeds of a disaster scene back to the Tactical Operations Center (TOC). The Command staff at the TOC can use that live video to direct operations according to what they see.

All units of the Directorate of Communications are authorized to conduct research and development into current and new means of communications. The units conducting such research and development projects shall provide a written report on their activities to the Director of Communications on a quarterly basis. This report will contain information on new projects being initiated, updates on existing projects, projects being discontinued and any recommendations for adoption of new technologies.

SECTION 10 ARMY MILITARY AFFILIATE RADIO SERVICE

Military Affiliate Radio Service (MARS) is a Department of Defense sponsored program, established as a separately managed and operated program by the Army, Navy and Air Force. The program consists of licensed amateur radio operators who are interested in military communications on a local, national, and international basis as an adjunct to normal communications.

TNSG unit MARS stations are operated and maintained under the auspices of the Director of Communications. TNSG Signal Sections are encouraged to apply for a MARS call sign and operate a MARS radio station.

Any unit wishing to obtain a MARS license can request an application from:

ATTN NETC-OPE-M (MARS STATION)
US ARMY NETCOM/9TH ASC
BLD 90551 JIM AVENUE
FORT HUACHUCA, AZ 85613-7070

Any unit obtaining a MARS license will report the license call sign to the Director of Communications as soon as it is received.

SECTION 11 AMATEUR RADIO OPERATIONS

The Federal Communications Commission licenses Amateur Radio operators. Amateur radio can not be used to conduct normal TNSG communications, but the technologies used in “ham” radio could be useful. Signal personnel desiring to pursue an amateur radio license are encouraged to do so. Information on becoming a licensed “ham” operator can be found at <http://www.arrl.org>.

NOTE: In an emergency situation where no other means of communication is available, any TNSG radio operator may operate on HF frequencies in order to obtain emergency assistance. This operation must be in accordance to all FCC Part 97 rules and regulations. This exception must be reported in writing to the TNSG Director of Communications as soon as possible after the incident. In a non-emergency situation, such as a training exercise, HF operations may occur only as authorized by the Director of Communications.

SECTION 12 COMMUNICATIONS SECURITY

All TNSG personnel will conduct all communications according to the procedures outlined in the TNSG Communications Security Standard Operating Instructions (COMSEC SOI). The COMSEC SOI will be issued during operations by the Communications Security Custodian or his representative. All copies of the COMSEC SOI that are issued shall be returned to the COMSEC Custodian when specified.

The COMSEC SOI is considered a classified document and will be treated as such. Any COMSEC SOI that is lost or misplaced needs to be reported to the COMSEC Custodian **immediately**. The COMSEC Custodian or his representative will brief all radio operators of current procedures and policies during any operations that are conducted.

SECTION 13 GMRS/FRS RADIOS

GMRS/FRS radios can be utilized in training, in garrison, and when authorized by the Director of Communications, Electronics, and Information. These radios can only be used on the FRS frequencies as the GMRS frequencies require an FCC license. It is vital that only the FRS channels be used on these radios. Failure to comply with this could lead to fines and forfeitures to the FCC of upwards of \$10,000 per violation.

Any unit wishing to use FRS radios during a public service event or any other operation will contact the Director of Communications, Electronics, and Information at Division Headquarters to obtain permission and direction on the use of FRS radios. This request needs to be in writing and detailing the need for using these radios.

ANNEX 1 TNSG CALL SIGN ASSIGNMENTS

ANNEX 1 contains the command and information net call signs of most people assigned to the TNSG. However, there was no attempt to cover everyone, as everyone will not be using a radio. If anyone has been left out, please make a note on the local TNSG SOP and use a spare call sign for the unit call sheet.

These call signs are intended to be used on formal command and information nets only. Tactical call signs may be used for individual missions and training.
